NOTICE

To whom it may concerned,

Recently we have learned that Green Link (Ominidefood) has been broadcasting the availability of Cryptomonadales™ in the territory of Singapore. Please note, ICBC had terminated the distribution agreement with Green Link (ominidefood) in August 2009, and there is no any product was supplied to Green Link (Ominide foof) by ICBC from then on.

Now Green Link is not the authorized distributor who represents ICBC to deal the business related affairs on the product series of Cryptomonadales™ in Singapore and other territories. Furthermore, in those marketing activities that Green Link holds the design of the Cryptomonadales™ product label is seriously infringing the intellectual properties possessed by ICBC. In addition to the label design, we also figured that the product "Omini Ginny" that have the expired date after 15th, August, 2011 that offered by Green link is not made By ICBC, since ICBC has never been the supplier who supplies such bathchs products to Green Link. ICBC reserves all rights for further legal matters.

Sincerely,

**International Cryptomonadales
Biotechnology Co., Ltd.**
